This collection of information is required by 37 CFR 1.333. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 21 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

TO THIS ADDRESS, SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Docket No.: 66329/00008

PATENT

1. (Original) A system for printing electronic files comprising:
means adapted for receiving an electronic file, wherein the electronic file is representative of a document;
means adapted for prompting a user for print setting information corresponding to the electronic file, the print setting information including at least one of a desired property including stapling, hole punching, output destination, number of copies, orientation, collating, and finishing;
means adapted for generating print setting information data;
means adapted for storing generated print setting information data in an associated storage;
association means adapted for associating print setting information data with the electronic file;
conversion means adapted for converting the electronic file to an image file;
means adapted for creating a print job by associating the in accordance with the image file with and the print setting information data;
means adapted for receiving data representative of a user request to select the print job for output to at least one selected destination, the at least one selected destination including at least one of a printed copy of the document, an e-mail inclusive of the image file, and an electronic copy of the image file; and
means adapted for receiving output request data representative of a user request to output the print job;
means adapted for outputting at least a first copy of the image file in accordance with received output request data;
means adapted for receiving a secondary output request data representative of a user request for at least a second output of the electronic file;
means adapted for retrieving, from the associated storage, print setting information data corresponding to the electronic file in accordance with a received secondary output request data;
and
means adapted for outputting at least a second copy of the electronic file in accordance with retrieved print setting information data corresponding thereto.
